- Technical Assistance
The Pittsburgh City Code includes provisions for ensuring that neighbors of proposed developments are notified and have an opportunity to provide input regarding zoning decisions that may impact them. This is accomplished through a standardized system of public meetings that are held in communities and convened by Registered Community Organizations (RCOs) as well as public hearings.

Developers are required to meet with the local RCO(s) in order to apply for a public hearing for projects above a certain threshold (list found [here](#)). Where there is more than one RCO in an area, the Neighborhood Planner will convene the public meeting in a neutral location. The Department of City Planning keeps an updated list and map of RCOs on this website. Registration for RCO status occurs in December of each year. Each RCO must renew their registration with the Department of City Planning every TWO years.

**2019 RCO Registration is now open!!!**

The 2019 Registered Community Organization (RCO) registration period is now open. Applications will be accepted until December 31, 2018. Please apply online [here](#). A printable pdf is also available [here](#). If you have any questions, please [contact us here](#).
