U STREET

HISTORIC OVERVIEW

Post Civil War, there was a great migration of government employees and speculative development in efforts to separate themselves from newly freed blacks.

Corridor was then supported by a streetcar line that allowed residents to commute to work and shop.

Transition from predominantly white and middle class, to the city's most important concentration of leading African American citizens.

Following the assassination of Martin Luther King, U Street became an epicenter of violence and vacancy. African American middle class relocates to Maryland.

After decades of negligence and delinquency, a wave of new urbanism had begun to take hold from 1997 onward.
